

Pre-Calculus Math 11

Instructor:

Bryan Onstad (bonstad@sd40.bc.ca)

Phone: 604-517-6191

This online course is designed to provide students with the mathematical understanding and critical-thinking skills identified for entry into post-secondary programs that require the study of theoretical calculus. There are 9 units:

1. Concepts included in multiple units
2. Sequences and Series
3. Absolute Value and Radicals
4. Solving Quadratic Equations
5. Analyzing Quadratic Equations
6. Graphing Inequalities and Systems of Equations
7. Trigonometry
8. Rational Expressions and Equations
9. Absolute Value Functions and Reciprocal Functions.

Help is available by email, online as well as in-person (by appointment).

Resources

Online lessons are enriched with over 40 embedded videos (between 3-5 minutes in length) that explain difficult concepts.

Purchase of the workbook is strongly encouraged as it provides exercises to give students practice.

Pearson: Pre-calculus 11: my WORKTEXT
ISBN-13 978-0-321-62449-9

The workbook can be purchased (\$30) at either one of [our locations](#). Workbook fee is nonrefundable.

Assessment

Unit tests are written online and each of the 9 units is weighted equally. There is no final exam. The first test can be written from home, but the remaining tests must be invigilated by a teacher at one of [our locations](#). There is no final exam.

Students residing outside the metro Vancouver area can arrange for remote proctoring of password-protected tests at another educational location. Contact your course instructor for details

Note - students are expected to complete their online course within a 4-5 month period of time.

To Begin

[Register](#), then log into your course from our [website](#) and follow the instructions on the course Home Page. Contact the course instructor if you have any questions.
