

Science for Citizens 11

Instructor: Jim Kemp

Email: jkemp@sd40.bc.ca

Description:

There are six modules in the course:

- Forensic Science
- Health and Nutrition
- Science at Home
- Science at Work
- Weather and Climate
- Sustainability

The BIG Ideas are:

Scientific processes and knowledge inform our decisions and impact our daily lives.

Scientific knowledge can be used to develop procedures, techniques, and technologies that have implications for **places of employment**.

Scientific understanding enables humans to **respond and adapt to changes** locally and globally.

Curriculum details can be found at: <https://curriculum.gov.bc.ca/curriculum/science/11/science-for-citizens>

Required resources

Access to a computer and Internet access is required as there are various readings, videos, animations, simulations and links in the course. All of the materials are online and there is NO textbook.

Assessment

There are module projects/assignments, quizzes and tests in this course.

6 Module Projects/Assignments = 30%

6 Module Quizzes = 20%

6 Module Tests = 50%

The 6 Module Tests are password-protected, so they must be written at a supervised location.

How long will this course take?

This is a 4-credit course and you should expect to spend 100 – 120 hours to complete it.

Note: The expectation is that students will complete their online course within a 5 month period of time.

Consult your teacher if additional time is needed.

Need help?

You may get help in person, by phone and online in the course by email.
