

Foundations and Pre-calculus Math 10

This course is divided into three modules, with review as the emphasis of the first two modules:

Module A	The Fundamentals optional
Module B	Intermediate Algebra optional
Module C	Advanced Algebra required

Prerequisites

Math 9, an assessment or permission of an instructor or counselor is required.

Resources

All materials are provided within the course. Brief videos explain each concept and worksheets (with answer keys) provide practice. Worksheets can be printed as needed. Help is available by email, online as well as in-person (by appointment).

Assessment

Students may be asked at any time to complete testing on site under the supervision of a teacher.

Practice tests give students feedback to inform their learning. Tests comprise 100% of the final grade. Password-protected tests must be written under supervision.

Students residing outside the metro Vancouver area can arrange for remote proctoring of password-protected tests at another educational location. Contact your course instructor for details.

To Begin

Once you have [registered](#), access your course through our [website](#) and follow the instructions on the Foundations and Pre-calculus Math 10 Home Page.

Note - students are expected to complete their online course within a 4-month period of time, but do have up to two semesters. Be in touch with your teacher if this becomes necessary.

Welcome! All the best as you pursue your studies!
