

New Westminster Online Learning School

Entrepreneurship 12:

Course Description

In Entrepreneurship 12, students learn characteristics of the global market and local economic trends and to design their business's life cycle including consideration of the social and environmental impact. They also learn to use tools and technologies to adapt their services or products. The online version of this course affords students the ability to work independently at the pace that best suits them while requiring careful time management and developing communication and thinking skills.

Course Expectation

Students are expected to complete the first assignment within 2 weeks of enrolling, to log in and make progress each week, and to finish the course within 5-months. They are expected to be in communication with their teacher when they have questions and if they need additional time. Students are expected to submit their own work.

Enduring Understanding/Big Ideas

Students will focus on:

- Design for the life cycle includes consideration of social and environmental impacts.
- Services and products can be designed through consultation and collaboration.
- Tools and technologies can be adapted for specific purposes.
