Entrepreneurship and Marketing ADST 9:

Course Description

In Entrepreneurship and Marketing 9 - Applied Design, Skills, and Technologies (ADST) students learn how social, ethical, and sustainability considerations could impact entrepreneurial plans and that entrepreneurs have to use different skills, technologies and tools at different stages of the life of a venture for it to be successful. The online version of this course affords students the ability to work independently at the pace that best suits them while requiring careful time management and developing communication and thinking skills.

Course Expectation

Students are expected to complete the first assignment within 2 weeks of enrolling, to log in and make progress each week, and to finish the course within 5-months. They are expected to be in communication with their teacher when they have questions and if they need additional time. Students are expected to submit their own work.

Enduring Understanding/Big Ideas

In the Applied Design, Skills, and Technologies 9 courses, students will focus on:

- Design for the life cycle includes consideration of social and environmental impacts.
- Services and products can be designed through consultation and collaboration.
- Tools and technologies can be adapted for specific purposes.
